

Urinal Divider with Dual Lock

ASSEMBLY INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE YOU BEGIN. DO NOT JUMP AHEAD OF ANY STEP.

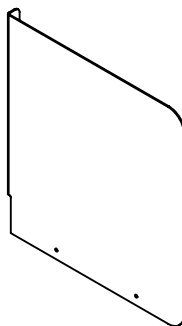

PARTS LIST:

NOTE: Clean the area where the Dual Lock tape will be applied with a 50:50 mixture of isopropyl alcohol (IPA) and water for proper adhesion.

***NO TOOLS REQUIRED**

***TWO PERSON ASSEMBLY RECOMMENDED**

Urinal Divider
(1 pc)

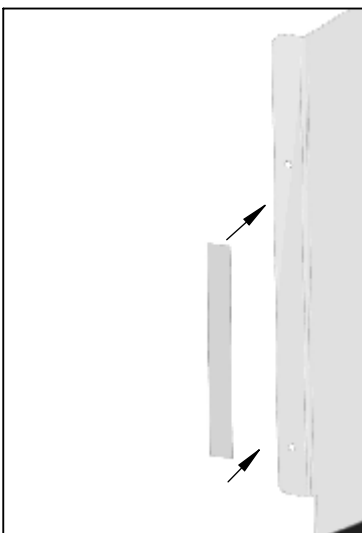

Dual Lock
Tape
(4 pcs)

STEP 1: Peel off the protective plastic film from both sides of Urinal Divider.

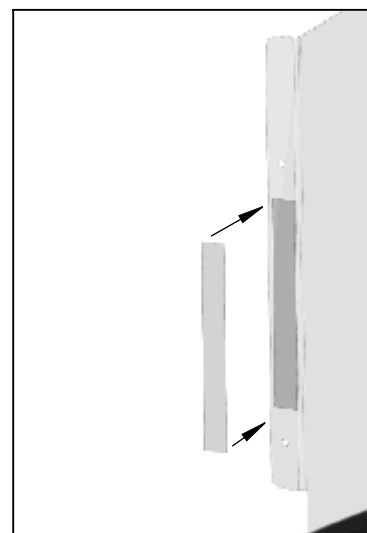

STEP 2: Remove the 3M protective film mask from one Dual Lock tape strip and apply the adhesive side facing inward vertically to the flange.

Dual Lock tape strip should be centered between holes.

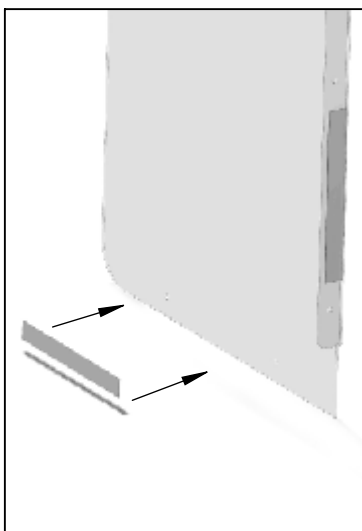

STEP 3: Attach one Dual Lock tape strip to the Dual Lock tape strip on the flange of the Urinal Divider with the adhesive side facing outward.

Do not remove 3M protective film yet.

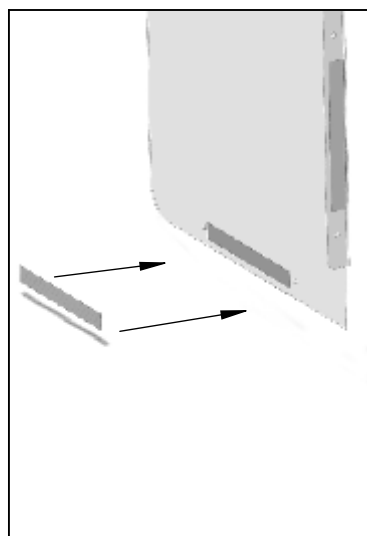

STEP 4: Remove the 3M protective film mask from one Dual Lock tape strip and apply the adhesive side facing inward horizontally to the inside of the Urinal Divider.

Dual Lock tape strip should be centered between holes.

STEP 5: Attach one Dual Lock tape strip to the Dual Lock tape strip on the inside of the Urinal Divider with the adhesive side facing outward.

Do not remove 3M protective film yet.

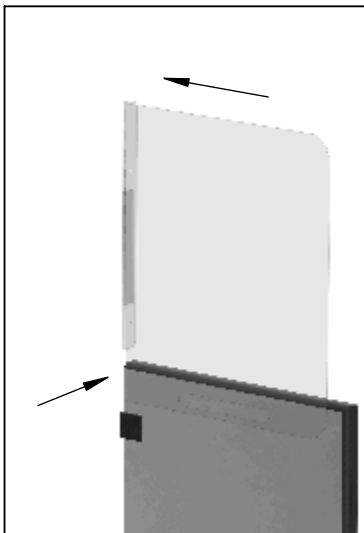

Urinal Divider with Dual Lock

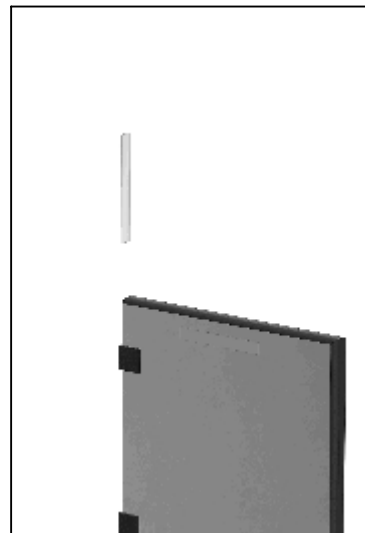

ASSEMBLY INSTRUCTIONS

READ ALL INSTRUCTIONS BEFORE YOU BEGIN. DO NOT JUMP AHEAD OF ANY STEP.

STEP 6: Remove the 3M protective film mask from the Dual Lock tape strips. Place Urinal Divider over two desired surfaces. Press firmly over the flange & outside face and hold for 30 seconds to bond the adhesive side of the Dual Lock tape strips to the desired surfaces.

STEP 7: Assembly is now completed. You can remove and reattach as needed. Two Dual Lock strips will stay on the desired surfaces and the other two on the Urinal Divider.

STEP 8: When reattaching make sure the Dual Lock tape strips are firmly attached to each other.

ASSEMBLY COMPLETED
